PRIZE

Top performers get hired with a paid contract and the opportunity to work on real-world projects.

QUEST BRIEF

At **Code Quests**, we run **challenge-based hiring** for tech companies.
We're looking for a **Junior Admin / Operations Coordinator** who can help us organize, track, and coordinate hiring quests smoothly.

This is an **organization, operations, and communication role**

This Hiring Quest is designed to show us:

1. How you **think**
2. How you **structure information**
3. How you **handle multiple moving parts**

Who We're Looking For

1. Strong experience with Google Sheets & Excel (tracking, filters, formulas)
2. Familiar with Airtable, Google Forms, Typeform, or CRM tools
3. Comfortable using Notion, ClickUp, Trello / Jira-style tools
4. Highly organized with strong follow-up & ownership
5. Excellent written & verbal communication skills
6. Customer-focused mindset with empathy for candidates & clients
7. Fast learner who can grasp new technical concepts quickly
8. Experience with automations or multiple workflows is a plus

---

Tasks Structure

This quest has **2 tasks**:

1. **Task 1 – Research & Community Mapping (Foundational)**
2. **Task 2 – Hiring Operations Dashboard (Core Task)**

Task 1 – Tech Communities Research

We want to see how you **search, organize, and document information** — a critical skill for sourcing candidates, reviewers, and partners.

Task Description

Research and list the **best and most active tech communities** for the following fields:

1. QA / Software Testing
2. DevOps & Cloud
3. Backend Development
4. Frontend Development
5. Mobile Development
6. UI/UX Design
7. Data / AI

Where to Look

You can include communities from:

1. Facebook Groups
2. LinkedIn Groups / Pages
3. Discord Servers
4. Slack Communities
5. WhatsApp / Telegram Groups
6. Forums / Platforms (e.g. Reddit, GitHub communities)

Deliverable (Google Sheet or Excel)

Create a sheet with **one row per community**, including:

1. Tech Field : QA / DevOps / Frontend / etc
2. Community Name : Name of the group or community
3. Platform : Facebook / LinkedIn / Discord / etc
4. Link : Direct link
5. Estimated Size : Members count (if available)
6. Activity Level : High / Medium / Low
7. Region : Egypt / MENA / Global
8. Notes :Why this community is useful

Aim for **5–10 communities per tech field**

What This Task Evaluates

- Research skills
- Attention to detail
- Ability to judge quality vs quantity
- Documentation clarity
- Effort & ownership

Task 2 – Multi-Job Hiring Coordination Dashboard

Your Mission

You are responsible for coordinating **10 active hiring jobs** at the same time.

Each job has:

1. Different candidates
2. Different stages
3. Reviewers & interviewers
4. Deadlines & follow-ups

We want to see how you **build visibility, tracking, and control**.

🟢 Dashboard — Trello OR Notion (choose one)

Your board must clearly show:

1. 10 active hiring jobs
2. Hiring pipeline stages: **Registration** → **Submission** → **Review** → **Interview** → **Offer**
3. Candidate status per job
4. Follow-ups & reminders
5. Important deadlines
6. Blockers / issues
7. Reviewer & interviewer assignments
8. Notes & comments
9. Priority tagging (High / Medium / Low)
10. SLA tracking (example: Review SLA = 48h)

Board should be:

1. Clean
2. Easy to navigate
3. Logically structured

Skills This Quest Evaluates

1. Organization & coordination
2. Process thinking
3. Research & sourcing skills
4. Communication & documentation
5. Ownership & follow-up
6. Attention to detail
7. Ability to handle multiple jobs at once

Final Deliverables

Submit:

1. Link to your Document contains Task 1 & 2 Links
2. A **short note (3–5 sentences)** explaining:
    1. Your structure
    2. Your logic
    3. How you thought about priorities & flow

Evaluation Criteria

1. Task 1 – Research Quality & Clarity 20%
2. Dashboard Structure & Clarity 30%
3. Hiring Pipeline Completeness 20%
4. Priority & Deadline Management 15%
5. Tool Usage (Trello / Notion / Sheet) 10%
6. Notes & Explanation 5%
